# DEScribing TRENDS

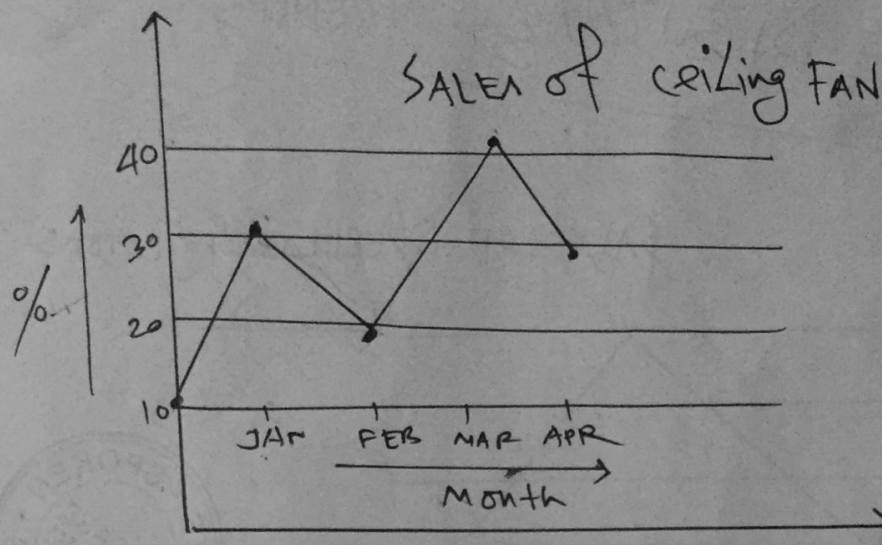

Although there was no particular trend from January to July, throughout January to ~~March~~ April, an increasing trend existed in the sales of overhead projectors, while a decreasing trend subsisted all through the months of April and July.

Follow this for trend and change the time and caption from the chart (necessary adjustments)

\* You can use/fit it nicely while crafting your overview.

## :: Describing DATA ::

Style of Writing:

As we can notice, the sales of ceiling fan (caption) before January were only 10% which went up as high as 32 units in January. But, during February, the sales decreased and ended up 18 units. Again, in the month of March, the number of ceiling fan sold shot up to 44 units, but again fell down during April, which finally turned out to be 28 units.

Picking% - As high as .....
